## SKILLS

React • JavaScript • HTML • CSS • Tailwind CSS • C++ • C# • OOP  
• DSA • MySQL • Git • Java

**Soft Skills:** Problem-Solving • Communication Skills

## EXPERIENCE

### Intern Intelligence

Front-End Developer Intern (ReactJS) Feb 2025 - Present, Remote

#### Implementation of the Front-End Features

- Developed dynamic interfaces using ReactJS for a responsive user experience.
- Integrated Firebase authentication for secure login.
- Built interactive components showcasing projects and skills.

### The Sparks Foundation

Front-End Developer Intern (ReactJS) Apr 2024 - May 2024, Remote

#### Web Development and Designing Intern

- Created user-centric web applications and interfaces, ensuring intuitive and engaging user experiences.
- Worked on innovative projects, enhancing technical proficiency and design skills.

## PROJECTS

### News Pulse (News API Website)

- A responsive web application providing the latest news articles from the GNews API. Built with HTML, CSS, and JavaScript. Included features like dynamic content, category selection, search functionality, and pagination, showcasing problem analysis and programming skills.

### Ecommerce Store

- Developed a visually appealing online store template using HTML, CSS, and JavaScript. The project featured a dynamic slider for product display, detailed product information, and a user-friendly payment form. Demonstrated skills in scripting, teamwork, and software architecture.

### Todo Web App

- Developed a responsive Todo web application using React.js, featuring task management with add, complete, and delete functionalities.
